

APPLIED Overview

Applied Intellect LLC is a Small Business (SB) specializing in technology, human, and environmental services. Since 2010, we have consistently delivered high-quality, on-budget, and timely solutions to both Federal and Non Federal organizations nationwide. We tailor our technical and project management services to meet each client's unique needs, using proven, repeatable processes. Our core values —continuous learning, cost-effective solutions, transformational improvements, and professionalism— drive us to build lasting client loyalty through delivery of exceptional service.

Clients:

Technology Services Division

The Technology Services Division (TSD) provides comprehensive program management and information technology support, specializing in cloud solutions, Agile methodologies, cybersecurity, and system modernization. With a focus on enhancing operational efficiency, we offer expert guidance in transitioning to cloud environments, implementing Agile frameworks to streamline workflows, and fortifying cybersecurity measures to protect sensitive data.

Project Highlight:

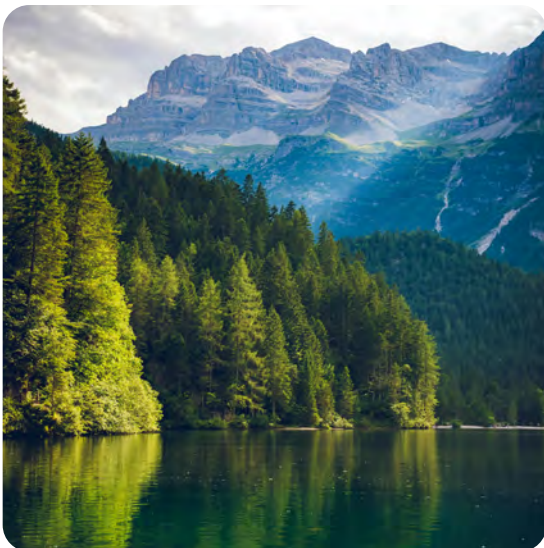

Project: UC Portal
Customer: HHS/Office of Refugee Resettlement

Human Services Division

The Human Services Division (HSD) enhances the overall welfare of individuals and communities around the world through an interdisciplinary approach. HSD serves as a vital link between organizations and people by providing program development, management, and implementation services to empower people in diverse situations. Our professional staff has expertise in social services, child welfare, human capital development, and logistics and strategic operations.

Project Highlight:

Project: Home Study and Post Release Services
Customer: HHS/Office of Refugee Resettlement

Environmental Services Division

The Environmental Services Division (ESD) supports our customer needs for a full range of environmental and engineering service areas. Our highly experienced professionals identify and investigate environmental challenges without bias and provide our clients with the information they need to effectively deal with these issues. Our scientists, geologists and engineers have extensive experience servicing a variety of Department of Defense and Federal Land Management agencies.

Project Highlight:

Project: Inventory of Orphaned and Abandoned Oil & Gas Wells
Customer: USDA/US Forest Service
